- Multiple User License (Global) €2475.00

Report description:

Although Uruguay enacted the alcohol zero law for driving several years ago, its ongoing impact on wine consumption remained significant in 2023. High outing costs in Uruguay, coupled with the necessity of using a taxi due to the prohibition on drinking and driving, have made dining out more expensive for many consumers. Consequently, a significant portion of the population preferred to avoid alcohol when dining out to reduce costs, negatively impacting wine consumption in the on-trade channel.

Euromonitor International's Wine in Uruguay report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Fortified Wine and Vermouth, Non Alcoholic Wine, Non-Grape Wine, Sparkling Wine, Still Light Grape Wine.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Wine market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
