### **Report description:**

Sales of ice cream in Bulgaria in 2024 are increasing in current value terms but declining in retail volume terms. This is due largely to the considerable rise in ice cream prices in the last few years of the review period and heightened consumer price sensitivity. Ice cream is not considered a basic food item with demand largely focused around three months of the year when the weather is warmer. Furthermore, ice cream prices continue to increase despite the decline in inflation. This is due to...
