Report description:

Description

Report Scope

The routine health screening market presents a vast and promising opportunity as it responds to evolving healthcare trends and societal needs. With an increasing emphasis on preventive healthcare, routine health screenings have become instrumental in detecting potential health issues at early stages. The market's expansion is propelled by the rising incidence of non-communicable diseases, such as diabetes and cardiovascular disorders, coupled with the aging global population, necessitating proactive health management strategies. Technological advancements, including innovations in diagnostic tools and the integration of artificial intelligence, enhance the accuracy and accessibility of screenings, catering to a broader demographic. The aftermath of the COVID-19 pandemic has further underscored the importance of regular health check-ups, reinforcing the significance of routine health screenings.

Additionally, incorporating these screenings into corporate wellness programs and the trend toward personalized medicine further amplifies the market's potential. The routine health screening market is poised for substantial expansion, playing a pivotal role in the proactive and personalized management of individual health globally. This report presents insights into this market's current and future potential, drivers, challenges, opportunities, industry status, developments, market trends, geographical challenges, and strategies (e.g., mergers, acquisitions, collaborations). The report informs all market players, potential entrants, government agencies, and other interested parties. The report covers geographic regions in detail, so companies interested in expanding their geographic reach will also find this study helpful.

Report Includes

- 37 data tables and 39 additional tables
- An overview of the global market for routine health screening
- Analysis of global market trends, featuring revenue data for 2021-2023, estimates for 2024, forecasts for 2029 and projected CAGRs through 2029
- Evaluation of the current market's size and revenue growth prospects, along with a market share analysis by test type, sample

type, technology, and region

- A look at recent innovations, technological advances, and product launches in the market
- Analysis of the industry's regulatory framework and policies
- A discussion of ESG challenges and practices in the routine health screening industry
- An analysis of the key companies' market shares, proprietary technologies, alliances, and other strategies
- A discussion of key patents
- Profiles of the leading players, including Quest Diagnostics, Laboratory Corporation of America Holdings, Sonic Healthcare Ltd., Eurofins Scientific, and SYNLAB AG

Executive Summary

Summary:

The global market for routine health screening is expected to grow from \$59.7 billion in 2024 and is projected to reach \$82.9 billion by the end of 2029, at a compound annual growth rate (CAGR) of 6.8% during the forecast period of 2024 to 2029.

Table of Contents:

Table of Contents

Chapter 1 Executive Summary

Market Outlook

Scope of Report

Market Summary

Chapter 2 Market Overview

Overview

Cholesterol Test

Diabetes Test

Blood Pressure Test

Cancer Screening Test

Prenatal Testing

Vision and Hearing Screening

Bone Density Test

Thyroid Profile Test

Essential Nutrients Check

Others

Chapter 3 Market Dynamics

Factors Affecting the Routine Health Screening Market

Market Drivers

Advancements in Screening Technologies

Growing Prevalence of Chronic Diseases

Growing Health Consciousness

Increasing Healthcare Spending

Market Restraints

High Costs Associated with Routine Health Screening

Psychological Barriers

Lack of Awareness and Acceptability in Low and Middle Income Countries

Market Challenges

False Positive and False Negative Screening Test Results

Declining Reimbursement

- Market Opportunities
 - Adoption of AI in Routine Health Screening
 - Expansive Opportunities in Emerging Economies
- Chapter 4 Market Segmentation Analysis
 - Segmentation Breakdown
 - Routine Health Screening Market, by Test Type
 - Cholesterol Screening
 - Diabetes Screening
 - Blood Pressure Test
 - Cancer Screening
 - Prenatal Screening
 - Vision and Hearing Screening
 - Bone Density Test
 - Thyroid Profile Test
 - Essential Nutrients Tests
 - Others
 - Routine Health Screening Market, by Sample Type
 - Overview
 - Blood-Based Sample
 - Urine-Based Sample
 - Imaging Sample
 - Other Samples
 - Routine Health Screening Market, by Technology
 - Overview
 - QPCR (Quantitative Polymerase Chain Reaction)
 - Q-FISH (Quantitative Fluorescence In Situ Hybridization) Technology
 - Immunoassays
 - Medical Imaging
 - STELA (Single Telomere Length Analysis)
 - Other Technologies
 - Geographic Breakdown
 - Routine Health Screening Market, by Region
 - North America
 - Asia-Pacific
 - Europe
 - Rest of the World
- Chapter 5 Emerging and Upcoming Technologies in the Market
 - Introduction
 - Emerging and Upcoming Technologies
 - Deep Phenotyping Technologies
 - Digital Health Interventions
 - Digital Precision Medicine
 - Wearable Devices and Remote Monitoring
 - Multicancer Detection (MCDs) Assays
 - Artificial Intelligence in Routine Health Screening
 - 5G-Enabled Devices
 - Genetics Testing
