

In Vitro Diagnostics (IVD) Quality Controls: Global Market

Market Research Report | 2024-07-12 | 124 pages | BCC Research

AVAILABLE LICENSES:

- Single User License \$5500.00
- 2-5 Users License \$6600.00
- Site License \$7920.00
- Enterprise License \$9504.00

Report description:

Description

Report Scope

This report provides details about the market for in vitro diagnostics quality controls used in checking the in vitro diagnostic devices present in labs, clinics and hospitals. This report will also highlight the current and future market potentiality of in vitro diagnostics quality controls, with a detailed analysis of the competitive environment between companies. Drivers, restraints, opportunities, prevalence or incidence of chronic diseases, and a regulatory scenario assessment will be covered in the current report. The report includes market projections for 2029 and market shares for key players.

Based on test type, the market is segmented into immunodiagnosics, clinical chemistry, hematology and hemostasis, molecular diagnostics, microbiology, and others. Based on products and services, the market is categorized into quality control products, data management solutions and quality assurance services. Based on type of manufacturer, the market is segmented into third-party controls and OEM controls. Based on end users, the market is segmented into hospitals, diagnostic laboratories and academic institutions.

By geographical region, the market has been segmented into North America, Europe, Asia-Pacific, and Rest of the World. Detailed analyses of major countries such as the U.S., Germany, the U.K., Italy, France, Spain, Japan, China, India, Brazil, Mexico, and GCC countries are covered within the regional segments. For market estimates, data will be provided for 2023 as the base year, with estimates for 2024 and forecast value for 2029.

Report Includes

- 40 data tables and 40 additional tables
- An overview of the global market for in vitro diagnostics (IVD) quality controls
- Analysis of global market trends, featuring revenue data for 2021-2023, estimated figures for 2024, and projected CAGRs through 2029
- Evaluation of the current market's size and revenue growth prospects, along with a market share analysis by test type, manufacturer, product/services, end user and region

Scotts International. EU Vat number: PL 6772247784

www.scotts-international.com

- Discussion of market drivers and restraints and other dynamics
- Assessment of the regulatory landscape, including product recalls
- Analysis of the key companies' market shares, recent M&A activity, acquisitions, joint ventures, partnerships, and patents
- Company profiles, including Abbott, bioMerieux, F. Hoffmann-La Roche Ltd., Siemens Healthineers, and Thermo Fisher Scientific Inc.

Executive Summary

Summary:

The global market for In Vitro diagnostics quality controls is expected to grow from \$1.5 billion in 2024 and is projected to reach \$2.1 billion by the end of 2029, at a compound annual growth rate (CAGR) of 7.8% during the forecast period of 2024 to 2029.

Table of Contents:

Table of Contents

Chapter 1 Executive Summary

Market Outlook

Scope of Report

Market Summary

Chapter 2 Market and Technology Background

Introduction

Overview

Classification of In Vitro Diagnostics Elements

Importance of In Vitro Diagnostics Quality Control

Regulations

Regulation of IVD products in Different countries

Chapter 3 Market Dynamics

Market Drivers

Rise in the Aging Population and Dependency on Frequent Diagnosis Procedures

Rising Demand for Third-Party Quality Control Products

Rising Incidence of Chronic Disease Cases

Strengthening Clinical Laboratories

Improving the Quality of Point-of-Care Testing

Market Restraints

Challenges for Quality Control Product Packaging

Increases in Shipping Costs or Service Issues

Improper Operation and Maintenance of Laboratory Equipment and Consumables

Market Opportunities

Rise in Home Care Testing Devices

Demand for Point-of-Care (POC) Testing Units

Chapter 4 Emerging Technologies and Developments

Artificial Intelligence

Prioritizing Old IVD Techniques

Automating In-Vitro Diagnostic Devices

Emerging Trends in In Vitro Diagnostics

FDA Approval

Rise in Demand for Personalized Medicine

Chapter 5 Market Segmentation Analysis

Segmentation Breakdown
Market Breakdown by Test Type
Immunodiagnosics
Clinical Chemistry
Hematology
Molecular Diagnostics
Microbiology
Other Test Types
Market Breakdown by Type of Manufacturer
Third-party Controls
ODM Controls
Market Breakdown by Products and Services
Quality Control Products
Data Management Solutions
Quality Assurance Services
Market Breakdown by End User
Diagnostic Laboratories
Hospitals and Clinics
Point-of-Care Centers
Research Institutions
Other End Users
Geographic Breakdown
Market Analysis by Region
North America
Market Size and Forecast
U.S.
Canada
Mexico
Europe
Market Size and Forecast
Germany
France
U.K.
Italy
Spain
Rest of Europe
Asia-Pacific
Market Size and Forecast
Japan
China
India
Australia and New Zealand
Rest of Asia-Pacific
Rest of the World
Market Size and Forecast
Brazil
GCC Countries
