business trends, growth perspectives, and more.

Key Highlights

General Atomics, founded in 1955 and headquartered in San Diego, California, USA, is a privately-held company renowned for its pioneering advancements in aerospace and defense technologies. The company operates globally with key business segments including Energy Systems, Electromagnetic Systems, Unmanned Aircraft Systems (UAS), Fusion Power, and Commercial Products. It employs over 12500 people worldwide and has subsidiaries like General Atomics Aeronautical Systems, Inc. (GA-ASI) and General Atomics Electromagnetic Systems (GA-EMS). General Atomics is at the forefront of developing innovative solutions such as nuclear fusion research at the DIII-D National Fusion Facility, advanced UAS like the MQ-9 Reaper, and electromagnetic launch systems for naval applications. The company's commitment to cutting-edge technology and strategic partnerships underscores its leadership in both civilian and military sectors globally.
