Report description:

Demand for headphones has reached its peak in Austria, with volume sales declining significantly for a second consecutive year over 2024. Wireless headphones, and particularly TWS earbuds, have become standard must-haves for most consumers. In addition, many of the latest smartphones do not have a headphone jack anymore. As such, volume sales of headphones reached saturation earlier in the review period. Current value sales declined due to stiff competition between the vast number of brands and...

Euromonitor International's Headphones in Austria report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
