Report description:

Retail volume sales of televisions in Chile are marginally improving following several years of strong decline, although they remain below pre-pandemic levels. The industry is shifting its focus towards specialising in certain segments, such as gamers, film or sports enthusiasts. To cater for these groups, home video devices are being designed with functionalities specifically adapted to their needs. This allows players to increase the average ticket value, for example, by using artificial intel...

Euromonitor International's Home Video in Chile report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
