Report description:

Volume sales of home video products are experiencing growth in Denmark in 2024, primarily driven by improving household sentiment due to a moderating inflation rate and a pause in interest rate hikes. This positive economic environment encourages households to spend more on consumer electronics, including televisions. Furthermore, major sporting events such as the 2024 European Football Championships and the 2024 Summer Olympics play a significant role in boosting television sales. Retailers cap...

Euromonitor International's Home Video in Denmark report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
