Report description:

2024 saw strong positive sales growth across snacks in Iraq despite high inflation and the rather chaotic scene on the supply side. While imported products and international brands are popular among affluent urban professionals, the majority remain loyal to more affordable imports from Iran and Turkey and, increasingly, locally manufactured products, which represent great value for money. Domestic production is increasing, supported by government policy and strong demand for affordable snacks.

Euromonitor International's Snacks in Iraq report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
