Report description:

The ageing population in Switzerland continues to support strong demand for spectacles in 2024, with an increasing number of consumers requiring corrective eyewear from a much younger age. More frequent screen usage is also expanding the potential consumer base. More children (school age) need corrective eyewear, often even as management measures to help support or correct eye-development. However, this also increases price pressures as many parents either cannot or do not want to spend large am...

Euromonitor International's Spectacles in Switzerland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth.
