Report description:

The economic situation in Hungary is marked by higher interest rates and lower inflation in 2024, although price increases still remain prevalent in consumer electronics. Consumers are under pressure to prioritise essential products needed for everyday use and chose to postpone the replacement of higher priced consumer electronics. Therefore, many categories of consumer electronics saw a decline in volume terms. Demand for highly innovative smartphones and laptops is also reduced as a result of...

Euromonitor International's Consumer Electronics in Hungary report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Computers and Peripherals, In-Car Entertainment, In-Home Consumer Electronics, Portable Consumer Electronics.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Consumer Electronics market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
