Report description:

Home furnishings registered steady growth in current value terms in 2023, with barbeques, home office furniture, and light-emitting diode lamps (LED) being among the most dynamic categories. Building on the work-from-home trend that developed during the pandemic, the shift towards remote working has led individuals to spend more time in their homes, thereby boosting sales of home office furniture as consumers looked to upgrade their home working environments. Meanwhile, there was a renewed focus...

Euromonitor International's Home Furnishings in Malaysia report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2028 illustrate how market demand is expected to evolve in the medium-term
