- Multiple User License (Global) €2985.00

Report description:

In 2024, imaging devices continues to see a persistent and deep decline in retail volume sales, largely attributed to the proliferation of smartphones in Indonesia. For the majority of consumers, cameras integrated into smartphones fulfil their photography needs adequately, diminishing the appeal of investing in specialised equipment like mirrorless and DSLR cameras. The convenience of having a multifunctional device that fits in one's pocket and offers decent photographic capabilities continues...

Euromonitor International's Imaging Devices in Indonesia report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
