- Multiple User License (Global) €2985.00

### **Report description:**

Imaging devices in Poland are expected to see a double-digit percentage volume decline, as smartphones continue to steal volume share. Smartphones today have high-quality cameras that are sufficient for the photography and video needs of the average consumer. Smartphones also have editing and sharing capabilities, rather than having to upload images or video and on to other devices for editing and sharing purposes. In addition, many consumers already own digital cameras or camcorders and may not...

Euromonitor International's Imaging Devices in Poland report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
