Report description:

In Singapore, imaging devices is anticipated to continue its dynamic decline in retail volume terms in 2024. The ongoing waning appeal of digital cameras is being driven by the widespread adoption of smartphones for capturing photographs. With ongoing advances in smartphone camera technology, including the integration of multiple lenses in newer models, the quality of images captured is consistently improving. In addition, the omnipresence of smartphones ensures that a camera is always within re...

Euromonitor International's Imaging Devices in Singapore report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
