- Multiple User License (Global) €2985.00

Report description:

In 2024, imaging devices in Sweden experiences a significant decline in retail volume sales. This decline is primarily driven by the substitution of digital cameras with smartphones. Smartphones offer greater convenience and versatility, reducing the need to own multiple devices. Additionally, the current cost-of-living pressures prompt households to minimise their spending, with the camera and video quality of smartphones deemed sufficient for the needs of most consumers. The aftermath of the C...

Euromonitor International's Imaging Devices in Sweden report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
