

North America Thermal Underfloor Heating Actuator Market Size - By Application (Residential, Commercial, Industrial), Country Outlook & Forecast, 2024 - 2032

Market Report | 2024-05-15 | 80 pages | Global Market Insights

AVAILABLE LICENSES:

- Single User \$2550.00
- Multi User \$3050.00
- Enterprise User \$5050.00

Report description:

North America Thermal Underfloor Heating Actuator Market size will expand at over 4.7% CAGR from 2024 to 2032, due to increasing construction activities. Thermal underfloor heating actuators are widely integrated into new building projects to enhance comfort and energy efficiency by providing precise temperature control under flooring. As the construction sector is growing, the demand for effective heating solutions is driving the adoption of these actuators as they are incorporated with more sophisticated technologies to offer improved performance and energy savings. According to an article by Construction Today, since 2021, the U.S. experienced a surge in construction activity with projects totaling \$500 billion. This growth is driving the demand for thermal underfloor heating actuators for enhancing comfort and energy efficiency in new buildings.

The market is segregated into application and country.

By application, the North America thermal underfloor heating actuator market from the residential segment is projected to rise from 2024 to 2032 due to a strong need for enhancing comfort and energy efficiency by regulating floor temperatures. These devices automatically adjust the heat output based on room conditions to ensure a consistent and pleasant indoor climate. As construction and renovation projects are increasing, these actuators are becoming more integral to modern homes. In addition, rapid advancements to meet the growing demand for efficient and customizable home heating solutions for making residential spaces more comfortable and Eco-friendly will add to the segment growth.

Canada thermal underfloor heating actuator industry size is projected to depict robust growth between 2024 and 2032, driven by the growing focus on climate change and environmental concerns. Thermal underfloor heating actuators are used in Canada for enhancing energy efficiency by providing precise temperature control in reducing energy consumption and lower carbon footprints. Homeowners and builders in the country are also integrating these actuators into new and renovated homes to align with sustainable building practices.

www.scotts-international.com

- 1.1 Market definitions
- 1.2 Base estimates & calculations
- 1.3 Forecast calculation
- 1.4 Data sources
 - 1.4.1 Primary
 - 1.4.2 Secondary
 - 1.4.2.1 Paid
 - 1.4.2.2 Public
- Chapter 2 Industry Insights
 - 2.1 Industry ecosystem analysis
 - 2.1.1 Vendor matrix
 - 2.2 Regulatory landscape
 - 2.3 Industry impact forces
 - 2.3.1 Growth drivers
 - 2.3.2 Industry pitfalls & challenges
 - 2.4 Growth potential analysis
 - 2.5 Porter's analysis
 - 2.5.1 Bargaining power of suppliers
 - 2.5.2 Bargaining power of buyers
 - 2.5.3 Threat of new entrants
 - 2.5.4 Threat of substitutes
 - 2.6 PESTEL analysis
- Chapter 3 Competitive landscape, 2023
 - 3.1 Introduction
 - 3.2 Strategic outlook
 - 3.3 Innovation & sustainability landscape
- Chapter 4 Market Size and Forecast, By Application, 2021-2032 ('000 Units & USD Million)
 - 4.1 Key trends
 - 4.2 Residential
 - 4.3 Commercial & industrial
 - 4.4 Utility
- Chapter 5 Market Size and Forecast, By Country, 2021-2032 ('000 Units & USD Million)
 - 5.1 Key trends
 - 5.2 U.S.
 - 5.3 Canada
- Chapter 6 Company Profiles
 - 6.1 Danfoss
 - 6.2 Fulton Bellows
 - 6.3 Honeywell International
 - 6.4 Mohlenhoff GmbH
 - 6.5 Oventrop GmbH & Co. KG
 - 6.6 Produal Oy
 - 6.7 Sauter AG
 - 6.8 Salus North America, Inc.
 - 6.9 Siemens AG
 - 6.10 TROX GmbH
 - 6.11 Warmup
