Report description:

So-called "clean label" products - products that are less processed, contain fewer but more nutritious ingredients and are lower in sugar, salt, fat etc - continued to perform positively in multiple snacks categories in Indonesia in 2023. These types of products have been gaining popularity for several years in line with the trend towards rising health awareness among the population, with information obtained from social media influencers and other online sources playing a key role in educating...

Euromonitor International's HW Snacks in Indonesia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: HW Confectionery, HW Ice Cream, HW Savoury Snacks, HW Snacks by Type, HW Sweet Biscuits, Snack Bars and Fruit Snacks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
