Report description:

Sugary soft drinks have become a particularly strong focus for concerns about the rise in childhood obesity across many markets. The issue of childhood obesity is particularly pressing in Spain, with research from the Instituto de Salud Carlos III and AESAN (Spanish Agency for Food Safety and Nutrition) indicating that more than half of adults and a third of children in Spain are overweight, influenced by factors such as low education and a family history of obesity. For children aged 2 to 17 ye...

Euromonitor International's HW Soft Drinks in Spain report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
