Report description:

In recent years, the adverse and unpredictable economic situation in Argentina and soaring inflation have put pressure on demand for health and wellness staple foods. This is due largely to the higher prices that are charged for staple foods with a health and wellness positioning. Consequently, regular spikes in food prices have distorted demand patterns in staple foods generally, with health and wellness staple foods affected by this. However, the situation has not been entirely negative as the...

Euromonitor International's HW Staple Foods in Argentina report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
