

**India Solar Control Glass Market Report by Technology (On-line Chemical Vapor Deposition, Off-Line Cathodic Sputtering Technologies), Application (Commercial, Automotive, Residential, Healthcare, Education, Hospitality, Leisure & Retail, Public Spaces), Distribution Channel (Trade Channels, Processing Channels), and Region 2024-2032**

Market Report | 2024-08-10 | 115 pages | IMARC Group

**AVAILABLE LICENSES:**

- Electronic (PDF) Single User \$3499.00
- Five User Licence \$4499.00
- Enterprisewide License \$5499.00

**Report description:**

The India solar control glass market size reached 474.2 Thousand Tonnes in 2023. Looking forward, IMARC Group expects the market to reach 970.3 Thousand Tonnes by 2032, exhibiting a growth rate (CAGR) of 8.03% during 2024-2032. The rising applications of solar control glass in numerous construction and infrastructure development projects, the prevalence of tropical climate in India, and continual technological advancements in the manufacturing of solar control glass represent some of the key factors driving the market.

Solar control glass is a specialized glass that has been designed to reduce the amount of solar radiation entering a building, while still allowing natural light to penetrate. This type of glass is coated with a thin metallic oxide layer that reflects and absorbs the sun rays, effectively reducing heat and glare transmission. Consequently, solar control glass can enhance the indoor comfort levels and reduce cooling costs by decreasing the amount of heat that enters the building. Additionally, the glass provides high levels of impact resistance, shatter resistance and ultraviolet (UV) protection, that protects furnishings and interior finishes from fading and damage. While reflecting the sunlight, solar control glass still maintains low reflectivity, ensuring that sufficient natural light penetrates. It comes in different colors and coatings, enabling architects and designers to create unique and aesthetically pleasing building facades. Some of the advantages of solar control glass include low maintenance, design flexibility, increased privacy and sustainability.

India Solar Control Glass Market Trends:

The market in India is primarily driven by the rising applications of solar control glass in numerous infrastructure development projects. This can be attributed to the augmenting demand for energy efficiency in residential as well as commercial construction applications. In line with this, rapid urbanization in India is driving the demand for solar control glass in residential properties to reduce the amount of energy required for HVAC appliances. Moreover, the prevalence of tropical climate in India is resulting in higher product sales, making it an ideal market for solar control glass. In addition to this, continual technological advancements in the manufacturing of solar control glass, resulting in the development of more efficient, aesthetically pleasing and affordable product variants are impacting the market positively. The market is further driven by the escalating demand for various green building certifications, leading to higher installations of solar control glasses in buildings. Apart from this, the rapid utilization of solar energy as an essential component in the country's energy security strategy is creating a positive outlook for the market. Furthermore, the introduction of various incentives such as tax exemptions and subsidies by the Indian government promoting the adoption of solar control glass, is propelling the market. Some of the other factors contributing to the market include rapid industrialization, rising environmental concerns, considerable rise in foreign investment for solar control glass production, and extensive research and development (R&D) activities.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the India solar control glass market report, along with forecasts at the country and regional level from 2024-2032. Our report has categorized the market based on technology, application and distribution channel.

#### Technology Insights:

- On-line Chemical Vapor Deposition
- Off-Line Cathodic Sputtering Technologies

The report has provided a detailed breakup and analysis of the India solar control glass market based on the technology. This includes on-line chemical vapor deposition and off-line cathodic sputtering technologies. According to the report, on-line chemical vapor deposition represented the largest segment.

#### Application Insights:

- Commercial
- Automotive
- Residential
- Healthcare
- Education
- Hospitality, Leisure & Retail
- Public Spaces

The report has provided a detailed breakup and analysis of the India solar control glass market based on the application. This includes commercial, automotive, residential, healthcare, education, hospitality, leisure & retail, and public spaces. According to the report, commercial represented the largest segment.

#### Distribution Channel Insights:

- Trade Channels
- Processing Channels

A detailed breakup and analysis of the India solar control glass market based on the distribution channel has also been provided in the report. This includes trade channels and processing channels. According to the report, trade channel accounted for the largest market share.

#### Regional Insights:

- South India
- North India

**Scotts International. EU Vat number: PL 6772247784**

tel. 0048 603 394 346 e-mail: [support@scotts-international.com](mailto:support@scotts-international.com)

[www.scotts-international.com](http://www.scotts-international.com)

- West and Central India
- East India

The report has also provided a comprehensive analysis of all the major regional markets, which include South India, North India, West and Central India, East India. According to the report, West and Central India was the largest market for India solar control glass. Some of the factors driving the West and Central India solar control glass market included continual technological advancements, increasing number of green building projects, rising environmental concerns, etc.

#### Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the India solar control glass market. Competitive analysis such as market structure, market share by key players, player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have been provided. Some of the companies covered include Asahi India Glass Limited, Gold Plus Glass Industry Limited, Gujarat Guardian Limited, Lingel Windows & Doors Technologies Pvt. Ltd., Saint Gobain India Private Limited, Sisecam, etc. Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

#### Key Questions Answered in This Report:

- How has the India solar control glass market performed so far, and how will it perform in the coming years?
- What are the drivers, restraints, and opportunities in the India solar control glass market?
- What is the impact of each driver, restraint, and opportunity on the India solar control glass market?
- What are the key regional markets?
- Which countries represent the most attractive India solar control glass market?
- What is the breakup of the market based on the technology?
- Which is the most attractive technology in the India solar control glass market?
- What is the breakup of the market based on the application?
- Which is the most attractive application in the India solar control glass market?
- What is the breakup of the market based on the distribution channel?
- Which is the most attractive distribution channel in the India solar control glass market?
- What is the competitive structure of the India solar control glass market?
- Who are the key players/companies in the India solar control glass market?

#### Table of Contents:

- 1 Preface
- 2 Scope and Methodology
  - 2.1 Objectives of the Study
  - 2.2 Stakeholders
  - 2.3 Data Sources
    - 2.3.1 Primary Sources
    - 2.3.2 Secondary Sources
  - 2.4 Market Estimation
    - 2.4.1 Bottom-Up Approach
    - 2.4.2 Top-Down Approach
  - 2.5 Forecasting Methodology
- 3 Executive Summary
- 4 Introduction
  - 4.1 Overview
  - 4.2 Key Industry Trends

**Scotts International. EU Vat number: PL 6772247784**

- 5 India Solar Control Glass Market
  - 5.1 Market Performance
  - 5.2 Impact of COVID-19
  - 5.3 Market Forecast
- 6 Market Breakup by Technology
  - 6.1 On-line Chemical Vapor Deposition
    - 6.1.1 Market Trends
    - 6.1.2 Market Breakup by Tint Type
    - 6.1.3 Market Forecast
  - 6.2 Off-Line Cathodic Sputtering Technologies
    - 6.2.1 Market Trends
    - 6.2.2 Market Breakup by Tint Type
    - 6.2.3 Market Forecast
- 7 Market Breakup by Application
  - 7.1 Commercial
    - 7.1.1 Market Trends
    - 7.1.2 Market Forecast
  - 7.2 Automotive
    - 7.2.1 Market Trends
    - 7.2.2 Market Forecast
  - 7.3 Residential
    - 7.3.1 Market Trends
    - 7.3.2 Market Forecast
  - 7.4 Healthcare
    - 7.4.1 Market Trends
    - 7.4.2 Market Forecast
  - 7.5 Education
    - 7.5.1 Market Trends
    - 7.5.2 Market Forecast
  - 7.6 Hospitality, Leisure & Retail
    - 7.6.1 Market Trends
    - 7.6.2 Market Forecast
  - 7.7 Public Spaces
    - 7.7.1 Market Trends
    - 7.7.2 Market Forecast
- 8 Market Breakup by Distribution Channel
  - 8.1 Trade Channels
    - 8.1.1 Market Trends
    - 8.1.2 Market Forecast
  - 8.2 Processing Channels
    - 8.2.1 Market Trends
    - 8.2.2 Market Forecast
- 9 Market Breakup by Region
  - 9.1 North India
    - 9.1.1 Market Trends
    - 9.1.2 Market Breakup by States
    - 9.1.3 Market Forecast

- 9.2 West and Central India
  - 9.2.1 Market Trends
  - 9.2.2 Market Breakup by States
  - 9.2.3 Market Forecast
- 9.3 South India
  - 9.3.1 Market Trends
  - 9.3.2 Market Breakup by States
  - 9.3.3 Market Forecast
- 9.4 East India
  - 9.4.1 Market Trends
  - 9.4.2 Market Breakup by States
  - 9.4.3 Market Forecast
- 10 SWOT Analysis
  - 10.1 Strengths
  - 10.2 Weaknesses
  - 10.3 Opportunities
  - 10.4 Threats
- 11 Value Chain Analysis
- 12 Porters Five Forces Analysis
  - 12.1 Overview
  - 12.2 Bargaining Power of Buyers
  - 12.3 Bargaining Power of Suppliers
  - 12.4 Degree of Competition
  - 12.5 Threat of New Entrants
  - 12.6 Threat of Substitutes
- 13 Price Analysis and Volume Analysis
- 14 Competitive Landscape
  - 14.1 Market Structure
  - 14.2 Key Players
  - 14.3 Profile of Key Players
    - 14.3.1 Asahi India Glass Limited
      - 14.3.1.1 Company Overview
      - 14.3.1.2 Product Portfolio
    - 14.3.2 Gold Plus Glass Industry Limited
      - 14.3.2.1 Company Overview
      - 14.3.2.2 Product Portfolio
    - 14.3.3 Gujarat Guardian Limited
      - 14.3.3.1 Company Overview
      - 14.3.3.2 Product Portfolio
    - 14.3.4 Lingel Windows & Doors Technologies Pvt. Ltd.
      - 14.3.4.1 Company Overview
      - 14.3.4.2 Product Portfolio
    - 14.3.5 Saint Gobain India Private Limited
      - 14.3.5.1 Company Overview
      - 14.3.5.2 Product Portfolio
    - 14.3.6 Sisecam
      - 14.3.6.1 Company Overview
