Report description:

Banks in Israel

Summary

Banks in Israel industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The banking industry involves the activities of banks and similar institutions that offer financial services such as savings, loans, mortgages, and related services to businesses and consumers.
- The Israeli banks industry group recorded assets of \$751.1 billion in 2023, representing a compound annual growth rate (CAGR) of 12.5% between 2018 and 2023.
- The bank credit segment accounted for the industry group's largest proportion in 2023, with total assets of \$441.1 billion, equivalent to 58.7% of the industry group's overall value.
- The Bank of Israel maintained the interest rate at a cap of 4.75% throughout H2 2023. The Monetary Committee resolved to lower the interest rate by 0.25 percentage points, to 4.5% on January 1, 2024. This decline in interest rates is supporting the demand for loans and therefore, the country's bank industry growth.

Scope

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the banks market in Israel
- Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the banks market in Israel
