Banks in Pakistan

Summary

Banks in Pakistan industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The banking industry involves the activities of banks and similar institutions that offer financial services such as savings, loans, mortgages, and related services to businesses and consumers.
- The Pakistani banks industry group recorded assets of \$287.5 billion in 2023, representing a compound annual growth rate (CAGR) of 8.0% between 2018 and 2023.
- The trading assets segment accounted for the industry group's largest proportion in 2023, with total assets of \$125.9 billion, equivalent to 43.8% of the industry group's overall value.
- The growth of the Pakistani banks industry group is driven by the government initiative and support to facilitate financing for housing. The State Bank of Pakistan collaborates with the government and Naya Pakistan Housing and Development Authority (NAPHDA) in executing these initiatives. Such measures supported the demand for loans and therefore the revenues of the banks industry group.
