Banks in Thailand

Summary

Banks in Thailand industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The banking industry involves the activities of banks and similar institutions that offer financial services such as savings, loans, mortgages, and related services to businesses and consumers.
- The Thai banks industry group recorded assets of \$756.5 billion in 2023, representing a compound annual growth rate (CAGR) of 5.2% between 2018 and 2023.
- The bank credit segment accounted for the industry group's largest proportion in 2023, with total assets of \$478.3 billion, equivalent to 63.2% of the industry group's overall value.
- In 2023, the revenue of the Thai banks industry group witnessed an annual growth of 1.4%. The growth is attributed to the reduction in inflationary pressure which supported the net interest margin (the difference between the interest earned on loans and the interest paid on deposits), hence banks profitability.
