Report description:

Sales of dairy products and alternatives have improved in 2024 due to a drop in contraband products from Argentina. Despite this, the consumer base for dairy products and alternatives remains small, comprised of Paraguay's growing middle class and inhabitants of large cities who are better able to afford the higher prices of packaged dairy and appreciate their convenience. Plant-based dairy remains a niche but is seeing dynamic growth thanks to increasing health and sustainability concerns.

Euromonitor International's Dairy Products and Alternatives in Paraguay report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
