Report description:

Consumption of dairy products and alternatives in the Czech Republic rebounded in 2024 following three years of decline in volume sales. With the economic situation stabilising and price increases moderating, consumers are buying more products. Dairy products and alternatives become too expensive for some consumers in recent years and the high cost of living still remains a purchasing barrier for many Czechs. Indeed, not all categories are growing in volume terms. More expensive products are sti...

Euromonitor International's Dairy Products and Alternatives in Czech Republic report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
