Report description:

The health and wellness industry continues to gain greater significance overall, particularly in the wake of the pandemic, as consumers have become more cognisant of the negative impact of processed food and a range of drinks on their health and wellbeing. The virus disproportionately affected those with underlying health conditions, such as obesity and diabetes, making people more conscious of the need to take care of their health and boost their overall immunity. As a result, people are increa...

Euromonitor International's Health and Wellness in Thailand report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: HW Cooking Ingredients and Meals, HW Dairy Products and Alternatives, HW Hot Drinks, HW Snacks, HW Soft Drinks, HW Staple Foods.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
