Report description:

The health and wellness trend was already rising within dairy products and alternatives before 2020, but was given a boost by the pandemic, and has only continued to rise. Consumers increasingly want to prevent any medical problems by eating the right foods, especially as cardiovascular diseases are on the increase in India. Many health and wellness attributes have seen an increase in consumption as a result. With high consumption of sugar, fat, and salt linked to overweight and obesity, and als...

Euromonitor International's HW Dairy Products and Alternatives in India report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: HW Baby Food, HW Dairy, HW Dairy Products and Alternatives by Type.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
