Report description:

Singapore's Ministry of Health implemented a Nutri-Grade labelling system on 30 December 2022. The regulation affects all packaged beverages and beverages from automated dispensers sold in Singapore. Under the scheme, Nutri-Grade beverages with a grade of C or D (indicating higher than 5g of sugar and/or greater than 1.2g of saturated fat per 100ml of product) must be labelled. This system aims to make it easier for consumers to identify products which have a high sugar and/or saturated fat cont...

Euromonitor International's HW Dairy Products and Alternatives in Singapore report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.
