Report description:

Following the outbreak of COVID-19 in Mexico, consumers have been embracing health and wellness claims, having a revived interest in goods that offer additional wellness benefits. Furthermore, many consumers are looking to reduce ingredients that may harm health in large quantities. These include sugar, fat, salt and caffeine. Consumers are becoming increasingly aware of both their mental health and physical health, with many looking to reduce caffeine levels to support gut health, anxiety and s...

Euromonitor International's HW Hot Drinks in Mexico report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.
