### **Report description:**

Traditional sour milk products like kefir and ryazhanka are performing relatively well with sales reporting a strong recovery in retail volume terms. Despite the challenging circumstances in the country seen since Russia's invasion these products are seen as a part of the core shopping basket for many elderly consumers in Ukraine. However, demand for such products remains focused on plain options without any additives, with flavoured varieties often perceived to be unhealthy and unnatural.

Euromonitor International's Yoghurt and Sour Milk Products in Ukraine report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
