### **Report description:**

In the Philippines, sales of cheese are predominantly accounted for by spreadable cheese and processed cheese; the former faces competition from various spreads, but has shown notable resilience in 2024. Despite the challenges from competing products, cheese is expected to demonstrate moderate growth in both retail current value and volume terms in the Philippines in 2024. This growth is particularly evident in processed cheese (excl spreadable), which is set to experience a solid increase in re...

Euromonitor International's Cheese in Philippines report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
