- Site License (PDF) \$2242.00
- Enterprisewide license (PDF) \$2990.00

### **Report description:**

Construction Materials Global Industry Guide 2019-2028

#### Summary

Global Construction Materials industry profile provides top-line qualitative and quantitative summary information including: market size (value , and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### Key Highlights

- The construction materials market consists of cement, aggregates, and bricks.
- Cement segment includes hydraulic cement (e.g. Portland cement), but excludes solid concrete. The aggregates segment includes sand, gravel and crushed rocks and stones used in construction, but excludes industrial sand (used in glass making etc.) and similar materials. Bricks segment covers building blocks and pipes made from fired clay or concrete. Other finished or semi-finished building materials and components are excluded from the scope.
- Market value refers to consumption of construction materials within the specified geography, whether produced domestically or imported. The market has been valued at manufacturers selling price (MSP).
- All market data and forecasts are adjusted for inflation and all currency conversions used in the creation of this report have been calculated using yearly annual average exchange rates.
- The global construction materials market recorded revenues of \$1,028.4 billion in 2023, representing a compound annual growth rate (CAGR) of 4.3% between 2018 and 2023.
- The aggregates segment accounted for the market's largest proportion in 2023, with total revenues of \$384 billion, equivalent to 37.3% of the market's overall value.
- According to GlobalData, in 2023, Asia-Pacific was the largest market accounting for a share of 81.6% in the global construction materials market, followed by North America and Europe, holding a share of 8.2% and 4.8%.

## Scope

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the global construction materials market
- Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global construction materials market
- Leading company profiles reveal details of key construction materials market players' global operations and financial performance
- Add weight to presentations and pitches by understanding the future growth prospects of the global construction materials market with five year forecasts

## Reasons to Buy

- What was the size of the global construction materials market by value in 2023?
- What will be the size of the global construction materials market in 2028?
- What factors are affecting the strength of competition in the global construction materials market?
- How has the market performed over the last five years?
- What are the main segments that make up the global construction materials market?

## Table of Contents:

### Table of Contents

#### 1 EXECUTIVE SUMMARY

##### 1.1. Market value

##### 1.2. Market value forecast

##### 1.3. Category segmentation

##### 1.4. Geography segmentation

##### 1.5. Competitive landscape

#### 2 Introduction

##### 2.1. What is this report about?

##### 2.2. Who is the target reader?

##### 2.3. How to use this report

##### 2.4. Definitions

#### 3 Global Construction Materials

##### 3.1. Market Overview

##### 3.2. Market Data

##### 3.3. Market Segmentation

##### 3.4. Market outlook

##### 3.5. Five forces analysis

#### 4 Macroeconomic Indicators

##### 4.1. Country data

#### 5 Construction Materials in Asia-Pacific

##### 5.1. Market Overview

##### 5.2. Market Data

##### 5.3. Market Segmentation

##### 5.4. Market outlook

##### 5.5. Five forces analysis
