Key Highlights

Established in 1962, LS Cable and System Ltd. has significantly contributed to building power grids and communication networks, starting in Korea and expanding globally. By developing, producing, and providing cables and related solutions, the company supports various industries and daily life. Their innovative technology has advanced industrial and economic development through the supply of specialized industrial cables and materials.

Today, LS Cable and System Ltd. supplies cutting-edge products, including submarine, extra-high voltage, high-temperature superconducting, and communications cables, to power authorities, heavy electric equipment manufacturers, and common carriers worldwide. Their products are utilized across the Americas, Europe, the Middle East, and Asia, establishing them as a leading global manufacturer.

Guided by the corporate philosophy, "LS Cable and System Way," the company aims to surpass profit generation by developing forward-thinking competencies, innovating business models, and creating eco-friendly, high-quality products. They prioritize reinforcing partnerships with stakeholders to maximize customer value. LS Cable and System Ltd. is committed to pioneering a brighter future through technological innovation and investment, providing the best total solutions for global industries."
