Key Highlights

The Israel Electric Corp Ltd. (IEC) is headquartered at 1 Netiv Ha'Or Street, Haifa 31000, Israel. Established in 1923, IEC is a government-owned company and the main supplier of electricity in Israel. The company is responsible for the generation, transmission, and distribution of electricity across the country. IEC operates an extensive network of power plants, including coal, gas, and renewable energy facilities, to ensure a stable and continuous supply of electricity to residential, commercial, and industrial customers. IEC's operation segments encompass the entire electrical power value chain, from the initial production of electricity to its final delivery to consumers. The company has been actively investing in modernizing its infrastructure and expanding its renewable energy capacity to meet the growing energy demands while promoting sustainability. The operating geography of IEC includes the entire state of Israel, where it serves millions of customers with a commitment to reliability, efficiency, and innovation. In recent years, IEC has focused on integrating advanced technologies and smart grid solutions to enhance the efficiency of its operations and improve customer service. Through its comprehensive approach to energy management, IEC plays a crucial role in supporting Israel's economic growth and ensuring energy security.
