Report description:

The number of tourists transported by airlines in Peru has seen significant growth in recent years, reaching pre-pandemic levels in 2023 and continuing to expand in 2024. This expansion is largely attributed to the outstanding performance of low-cost airlines, which have become an attractive option for travellers due to their affordable fares since the lifting of travel restrictions in 2022. The dynamism in domestic tourism, which reached pre-pandemic levels in 2023, has also played a crucial ro...

Euromonitor International's Airlines in Peru report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2028 illustrate how the market is set to change.
