Report description:

In 2023, Singapore's outbound and transit passenger traffic at Changi Airport fully recovered, while inbound traffic was also catching up to the pre-pandemic level; this level is expected to be reached in 2024. Notably, low cost carriers (LCCs) such as Scoot outperformed traditional airlines on some routes in 2023, such as Chinese routes, indicating growing demand for budget travel options. This trend has continued in 2024, with the launch of direct budget flights between Singapore and Tokyo by...

Euromonitor International's Airlines in Singapore report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2028 illustrate how the market is set to change.
