Report description:

In 2024, the airline industry in Turkey is experiencing a surge in current value growth driven by high levels of inflation and the rebound of inbound tourism. The notable increase in ticket prices has been driven by escalating operational costs for airlines. While both domestic and international flights are performing well, international flights are expected to dominate in Turkey capturing the largest share of sales and exhibiting the most dynamic growth. This reflects the rising demand for inte...

Euromonitor International's Airlines in Turkey report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2019-2023, allowing you to identify the sectors driving growth.
