Report description:

Within analgesics in the Dominican Republic in 2024, acetaminophen continues to account for most value sales. Acetaminophen is perceived by Dominicans as highly effective against pain and fever and also does not cause digestive issues. Acetaminophen is also frequently recommended by health professionals for conditions that are common in the Dominican Republic such as dengue or malaria, and in particular there was a high incidence of dengue in 2024 and this is expected to support volume sales. In...

Euromonitor International's Analgesics in Dominican Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
