Report description:

Although inflation is gradually coming under control, many categories within dairy products and alternatives in Peru are still experiencing high value growth, mainly due to price increases rather than a notable increase in demand. This situation is compounded by the fact that disposable incomes have not kept pace with the price hikes of recent years, with a considerable share of local households struggling to cover their monthly outgoings, a scenario that forces them to turn to their savings to...

Euromonitor International's Dairy Products and Alternatives in Peru report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
