Report description:

Among digestive remedies in the Dominican Republic in 2024, diarrhoeal remedies is expected to register the highest current value growth. Part of the reason for the increased demand is increased incidences of both dengue fever and malaria, as well as some incidences of cholera. For instance, in 2023, the Ministry of Public Health reported registered cases of dengue reached close to 25,000, a growth of 105% compared with the previous year. This upward trend continued in 2024, with the Pan America...
