**Report description:**

Paediatric cough/cold remedies witnessed extraordinary growth in retail volume and current value terms over 2022 and 2023, due to the strong return of respiratory infections post-pandemic and a prolonged flu season. Stock problems with certain medicines for cough and fever resulted in panic and bulk buying, with parents buying whatever product was available. In 2024, the spread of respiratory infections among children was comparatively mild, which may be attributed to the relatively warm weather...
