- Multiple User License (Global) €2985.00

Report description:

The wound care market in the Netherlands is projected to show positive growth in current value terms in 2024, driven by high levels of participation in sports and outdoor activities. As more individuals engage in these activities, the incidence of minor injuries and wounds increases, boosting the demand for effective wound care solutions. This demand is further supported by the introduction of a wider range of specialised products and rising unit prices, due to both product diversification and i...

Euromonitor International's Wound Care in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
