Report description:

The COVID-19 crisis has left a lasting impact on how New Zealanders work, with remote working now firmly entrenched and many companies downsizing their office footprints and actively encouraging employees to work from home. This has resulted in increasing consumer interest in many claims within health and wellness hot drinks, due to a more engaged and conscious consumer base who are increasingly concerned about the health impact of potentially sedentary and stressful lifestyles. Within coffee, l...

Euromonitor International's HW Hot Drinks in New Zealand report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
