### **Report description:**

Casablanca and Rabat are Morocco's most economically vibrant cities. Meanwhile, Agadir holds the highest potential for future economic growth. However, challenges for the country's cities will persist in the near term due to the continuing global economic slowdown and the impact of tight financial conditions. In the longer run, Morocco's cities are set to face burdens on infrastructure, due to large and increasing populations.

Euromonitor International's City Review reports analyse key trends and developments in 126 world's major cities. They provide localised city information in terms of economy, consumer lifestyles, housing and transport and city environment and offer valuable insights for strategic planning.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
