Report description:

Analgesics in Estonia, as a product area, is approaching saturation in 2024, with established brands like ibuprofen and paracetamol continuing to dominate consumer preferences. These products remain indispensable for managing common pain, but the market faces constraints due to a lack of significant innovation. This saturation is reflected in stable yet modest sales growth, with minimal differentiation between products. During the pandemic, there was a notable shift towards well-established brands...

Euromonitor International's Analgesics in Estonia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Systemic Analgesics, Topical Analgesics/Anaesthetic.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
