Report description:

While in 2024, analgesics in Guatemala is expected to register current value growth, constant value sales are expected to fall, as high costs continue to hit profit margins. Acetaminophen continues to account for most value sales and is perceived by consumers by being effective against pain and fever, with limited side effects. In addition, with a high incidence of tropical diseases such as dengue fever and malaria in 2024, this is also expected to support volume sales of acetaminophen, as it is...
