### **Report description:**

Consumer electronics in Brazil navigated a challenging landscape in 2023, with overall retail current value growth minimal, while retail volume sales fell. However, signs of recovery emerged as 2024 progressed, with expectations of significant growth for the year overall, driven by a more favourable economic climate and an increased focus on innovation across several key categories. Inflation has been a key factor, driving up prices, although most price increases have remained close to inflation...

Euromonitor International's Consumer Electronics in Brazil report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues.
