Report description:

In 2024, consumer health in Latvia is getting back on track following the fluctuations caused by the COVID-19 pandemic. While demand for OTC products is stabilising, retail volume growth is likely to stagnate due to maturity and economic uncertainty. Consumers remain cautious with expenditure and are choosing more affordable options when they feel necessary. Price inflation continues to underpin current value growth although inflation has fallen in Latvia. Whilst there is little organic growth i...

Euromonitor International's Consumer Health in Latvia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Allergy Care, Herbal/Traditional Products, OTC, Paediatric Consumer Health, Sports Nutrition, Vitamins and Dietary Supplements, Weight Management and Wellbeing.
