Report description:

The dermatological market in Slovakia is projected to experience positive growth in current value terms in 2024, largely driven by a rising demand for antifungals, as well as cold sore treatments. Growing awareness among Slovak women regarding vaginal health and the risks associated with untreated fungal infections, coupled with an expanding range of product offerings, is significantly boosting demand for vaginal antifungals. At the same time, increased participation in sports, both indoors and...

Euromonitor International's Dermatologicals in Slovakia report offers a comprehensive guide to the size and shape of the market at a national level.
